10 Reasons to Use LockDown Browser® in K-12

1. Locks down the testing environment
LockDown Browser prevents digital cheating during online tests. Students cannot print, copy, or go to another website—everything is locked down until the exam is submitted for grading.

2. Integrates seamlessly with your LMS
LockDown Browser works seamlessly with learning management systems such as Canvas (Classic and New Quizzes), Schoology, Blackboard Learn (Original and Ultra), Moodle, and Brightspace.

3. Blocks application switching
Students can't access other applications when using LockDown Browser. This prevents them from viewing class notes, searching the internet, accessing email, using instant messaging, and more.

4. Protects exam questions
Significant time goes into preparing test questions, and it only takes one bad actor to copy, share, and print the exams. LockDown Browser protects exam questions by blocking print functions, copy-and-paste, and screen-capture programs.

5. Increases confidence in online testing
Some teachers resist online testing because they're concerned students can easily cheat. LockDown Browser protects the integrity of online testing and gives teachers confidence in using it.

6. Supports all major devices
LockDown Browser is available for Windows, Mac, Chromebook, and iPad devices. Installation and updates are easy for students or technology staff to manage.

7. Save the budget … and some trees
Printed exams and bubble sheets are expensive and wasteful. Switching from printed exams to online testing can save thousands of dollars (or Euros, or Pounds, or Pesos) in paper costs.

8. Is easy to set up and manage
Teachers select the requirement for LockDown Browser from within the LMS itself. LockDown Browser automatically starts when a student begins the exam. Training videos and resources are built into the application itself.

9. Brings flexibility to how you test
For tests delivered remotely, the "Instructor Live Proctoring" feature allows teachers to watch students with Zoom, Teams, and Google Meet, all while LockDown Browser controls the student's device.

10. Includes StudyMate Campus
LockDown Browser and StudyMate Campus are Buy One, Get One Free for K-12 schools. StudyMate Campus lets students and teachers create flash cards and learning games within the learning system.

Each year, 100+ million exams use Lockdown Browser at over 2,000 institutions worldwide.
