

Study Mate

Student Quick Start Guide

CLASS

OVERVIEW

StudyMate Class improves student knowledge of core concepts and terms through web-based learning activities. The activities, such as flash cards and crosswords, use glossary terms and facts entered by the students or instructor. Students then practice with the activities that appeal to them, and can even review and edit items created by classmates. StudyMate Class integrates seamlessly with online courses for instructor facilitation and grading.

ACCESSING A STUDYMATE CLASS PROJECT

Once a StudyMate Class project is created by the instructor, students can access it by clicking the StudyMate Class link.

TWO MENU TABS

StudyMate Class has two menu tabs. The *Edit* tab is used to create or edit items for the project. The *View* tab displays these items in the form of interactive activities and games.

THE EDIT TAB

Below the *Edit* tab are three template options: *Fact, Term/ Definition,* and *Multiple Choice*.

View	Edit		
Fact	Term	/ Definition	Multiple Choice
	-		

Fact Template

The *Fact* template allows the entry of a fact, phrase or text on a given subject.

"Fact" Template [explain]	
Title: sawyerr-006	
Enter a fact, phrase, or any text that you want	to remember:
In 1909, Robert Peary became the fir:	st man to reach the North Pole.
Topic (optional): Explorers	Preview: Choose 💙 GO
Add to List	

➤ The Fact Template links to two activities on the View tab: Fact Cards and Fact Card Plus+.

Term/Definition Template

The *Term/Definition* template allows the entry of a term and its definition (or a question and its answer) on a given subject.

"Term / Definition" Template [expla	ain]
Title: sawyerr-006	
Term or Answer (e.g. Albert Einstein): Alexander Graham Bell	
Definition or Question (e.g. Developed General Invented the wired-line telephone in	l Theory of Relativity): 1876
Topic (optional): Inventors	Preview: Choose 🕑 GO

➤ The Term/Definition Template links to six activities on the View tab: Flash Cards, Pick A Letter, Fill in the Blank, Glossary, Matching, and Crosswords.

Multiple Choice Template

The *Multiple Choice* template allows the entry of a multiple choice or true/false question.

itle: sawyerr-006		
uestion Wording (r Definition:	
ustralia is th econd largest	e largest island in the world in terms of size. W island?	Jhat is the
nswers:		
A Great Britain		
B New Zealand		
B New Zealand C Greenland		
B New Zealand C Greenland D Newfoundland		

➤ The *Multiple Choice* template links to two activities on the *View* tab: Quiz and Challenge.

THE VIEW TAB

The *View* tab offers up to 11 self-study activities, each linked to a template on the *Edit* tab:

• *Fact Cards* - one-sided cards that display a fact or explanation. (This activity links to the Fact Template.)

• *Fact Cards*+ - similar to Fact Cards, but can be organized by topic. (This activity links to the Fact Template.)

• *Flash Cards* - two-sided cards that display the term/answer on one side and the definition/question on the second side. (This activity links to the Term/Definition template.)

• *Pick A Letter* - displays the definition/question at the top of the screen and has the user type or click the letters for the answer. (This activity links to the Term/Definition template.)

EDITING AN EXISTING ITEM

To edit an item you've previously created, locate it within the list at the bottom of the *Edit* tab (or use the "Expanded View" from the *Edit* tab). Then click the context menu to the left of the title and select "Edit".

Title	τı
≚ ramquists-	Fa
<pre> Preview Zedit </pre>	
📋 Delete	

Depending on the editing rights set by the instructor, it may be possible to edit items created by other students or the instructor.

SEARCH

A search feature is located at the bottom of the *Edit* tab. All fields are searched including the Title, Author's Name, and the text of the item. So, for example, if you want to see what your classmate, Jed, has contributed, you can enter his name in the search field.

MOBILE

StudyMate StudyMate Class can be used on mobile devices, such as the iPhone, iPod touch, BlackBerry, Pre, Android, and more. Using the device's browser, log into your online course and navigate to the StudyMate Class project. The type of device will be detected and all learning activities will be displayed in the proper size and format for that device. In addition, a free "StudyMate LMS Edition" app is available for the iPhone/iPad (from iTunes), Android (from the Android Marketplace/Google Play), and Kindle Fire (from the Amazon Appstore). The apps allow StudyMate Class users to synchronize projects with online courses and work with learning activities offline.

MYSTUDYMATE

There are two types of projects: standard and MyStudyMate. The standard type of project allows all items to be viewed by students, regardless of who creates them. The MyStudyMate project type only allows items to be viewed by the student who created the item, and only certain features are available to users.

PROBLEMS?

If you have problems using StudyMate Class, please contact your instructor.
