

# 10 REASONS TO USE LOCKDOWN BROWSER

**1** **Locks Down The Testing Environment**  
LockDown Browser prevents digital cheating during online tests. Students cannot print, copy, or go to another website—everything is locked down until the exam is submitted for grading.

**2** **Seamless Integration With Your LMS**  
LockDown Browser works seamlessly with learning management systems, including Blackboard Learn, Blackboard Learn Ultra, Brightspace, Canvas, Moodle, and Schoology.

**3** **Blocks Application Switching**  
Students can't access other applications when using LockDown Browser. This prevents them from viewing class notes, searching the Internet, accessing email, using instant messaging, and more.

**4** **Protects Exam Questions**  
Significant time goes into preparing test questions, yet students routinely copy, share, and print the exams. LockDown Browser protects exam questions by blocking print functions keyboard shortcuts, copy-and-paste, and screen-capture programs.

**5** **Increases Faculty Confidence in Online Testing**  
Some instructors resist online testing because they're concerned students can easily cheat. LockDown Browser protects the integrity of online testing and gives faculty confidence in using it.

**6** **Available for Windows, Mac, and iOS**  
LockDown Browser can be used on Windows, Mac, and iPad devices. This lets students use their preferred device to take exams.

**7** **Save the Budget... and the World**  
Printed exams and bubble sheets are expensive and wasteful. A course that switches from printed exams to online testing can save thousands of dollars (or Euros, or Pounds, or Francs) in paper costs.

**8** **Easy to Set Up and Manage**  
Instructors can set up exams for LockDown Browser with a few clicks, all from within the LMS. And it only takes a moment for students to install LockDown Browser.

**9** **Ready-to-use Training Resources**  
Rollout to faculty and students is easy with ready-to-use resources, including Quick Start Guides and demonstration videos, available on the welcome page of the LockDown Browser tool. Free training webinars provide instructors everything they need to get started. Register at [respondus.com/webinars](https://respondus.com/webinars).

**10** **200 Free Seats of Respondus Monitor**  
An annual license of LockDown Browser includes 200 free seats of Respondus Monitor, a companion product that uses webcam and video technology to deter cheating in non-proctored settings.

EACH YEAR, 80 MILLION EXAMS ARE TAKEN WITH LOCKDOWN BROWSER AT OVER 1,500 INSTITUTIONS WORLDWIDE.
