10 REASONS TO USE RESPONDUS 4.0 IN K-12

1. Seamless Integration with Leading Learning Systems
Respondus 4.0 provides a fast and easy way to create tests and publish them to an online course. It integrates seamlessly with Canvas, Blackboard Learn, Moodle, and Brightspace.

2. Convert Exams from Word
Save countless hours by converting entire tests from Microsoft Word format, rather than copying and pasting individual questions. Questions can include embedded images, tables, equations, and many other types of formatting.

3. Create New Questions Easily
Respondus 4.0 guides you through the process of creating an online test. It's easy to create or select questions, add images, create links to content on other websites, assign point values, preview the test, and publish the test and its settings to your online course.

4. Synchronize Print and Online Exams
Tests created in Respondus 4.0 can be printed to paper or published to an online course, with no need to reformat questions for either use. Tests can also be saved as Word files and it's easy to print answer keys.

5. Increase Adoption of your Learning System
If your school or district is in the early stages of using a Learning Management System, Respondus 4.0 will foster teacher adoption by simplifying how they bring existing exams into the system.

6. Stress-free Rollout to Teachers
Thousands of educational institutions use Respondus 4.0. It's easy for teachers to get up and running with videos, Quick Start Guides, and more.

7. The Freedom of Working Offline
Sometimes it's just not convenient to use a web-based application. With Respondus 4.0, users have the flexibility to work offline until they are ready to publish the test to their online course.

8. Something for Everyone
Respondus 4.0 includes time-saving tools that meet the unique needs of many academic areas. The Equation Editor is ideal for math and science. Foreign language teachers like the support of special characters. And many teachers appreciate being able to reuse complex tables created in Word.

9. Designed for Teachers, not Techies
Perhaps the best thing about Respondus 4.0 is that teachers can learn to use it with little or no training. It's become a fundamental tool at hundreds of institutions to help teachers make the transition to online testing.

10. Flexible License Options
Respondus 4.0 is available as a site license for unlimited use by teachers within a school or district. A single-user license is also available to individual teachers or instructional technologists. Download a free 30-day trial to get started.
