

10 Reasons to Use LockDown Browser® in K-12

1. Locks down the testing environment

LockDown Browser prevents digital cheating during online tests. Students cannot print, copy, or go to another website—everything is locked down until the exam is submitted for grading.

2. Seamless integration with your LMS

LockDown Browser works seamlessly with learning management systems such as Canvas (Classic and New Quizzes), Schoology, Blackboard Learn (Original and Ultra), Moodle, and Brightspace.

3. Blocks application switching

Students can't access other applications when using LockDown Browser. This prevents them from viewing class notes, searching the internet, accessing email, using instant messaging, and more.

4. Protects exam questions

Significant time goes into preparing test questions, yet students routinely copy, share, and print the exams. LockDown Browser protects exam questions by blocking print functions, copy-and-paste, and screen-capture programs.

5. Increases confidence in online testing

Some teachers resist online testing because they're concerned students can easily cheat. LockDown Browser protects the integrity of online testing and gives teachers confidence in using it.

6. Supports all major devices

LockDown Browser is available for Windows, Mac, Chromebook, and iPad devices. Installation and updates are easy for students or technology staff to manage.

7. Save the budget... and some trees

Printed exams and bubble sheets are expensive and wasteful. Switching from printed exams to online testing can save thousands of dollars (or Euros, or Pounds, or Francs) in paper costs.

8. Easy to set up and manage

Teachers can require that a test uses LockDown Browser with just a few clicks, right from within the LMS. Students then simply launch the browser to take the test. Instructor training videos and quick start guides are built into the product itself.

9. Flexibility for how you test

Sometimes remote, online tests are a necessity. The Instructor Live Proctoring feature allows teachers to lock down the test and watch students live via Zoom, Meet, Teams or another video conferencing system.

10. Includes StudyMate Campus

LockDown Browser and StudyMate Campus are Buy One, Get One Free for K-12 schools. StudyMate Campus lets students and teachers create flash cards and learning games within the learning system.

Each year, 100+ million exams are taken with Lockdown Browser at over 2,000 institutions worldwide.
